

USL Group - Position Vacancy

Maintenance Operator (Sheffield)

USL Group is looking to recruit a Maintenance operator to join the Logistics Department at our Sheffield site. As part of the team, they will carry out the servicing, inspections and repairs of our bespoke spray machines and plant.

The Position:

The group is looking for a career driven individual with the enthusiasm to learn and grow with the business with the skills to enhance an already strong team working within the Engineering Department. This is a varied role where the operator will undertake a variety of different disciplines under the umbrella of the Engineering Department which will involve out of hours work at short notice and occasional travel to sites in the UK.

The successful candidate should have proven experience as a plant mechanic and be able to prioritize work accordingly. Having experience in fault finding is essential for this role.

The characteristics we are looking for in candidates are as follows.

Compulsory

- 2 years' experience within machine maintenance.
- Experience of planned and preventative maintenance.
- Monitoring and maintaining work in progress reports.
- Full UK Driving Licence.
- Good communication skills.
- Reliable & Flexible.
- Willingness to learn.
- Trustworthy.

Advantageous *(Non-essential as additional training will be provided)*

- Understanding of pipe work systems.
- Knowledge of gear driven pumps.
- Experience of compressor maintenance.
- Understanding of a petrol engine.
- Mechanically Minded.

- Experience of stock control.

Employment Terms:

Full Time Employment – Working hours: 08:30 – 17:00, Monday – Friday
(3-month probation period)

Salary:

Negotiable

Holiday Entitlement:

21-day annual leave (Jan – Dec) plus 8 Statutory Bank Holidays

The Benefits:

- Employer Contribution Pension

Why Should You Apply?

Please find a list of bullet points explaining why this role and our company would be a good move for anyone looking to continue working within the logistics sector.

- Becoming part of a dedicated long-term workforce of an ever-growing company.
- The opportunity to learn and grow personally within the industry with future additional prospects.
- Highly competitive rates of pay & company benefits.

Interested?

If you or anyone you know who has the required skills and would like to apply for this great opportunity, please email your interest along with your CV to **Chris Knapton (Engineering Manager)** at **chris.knapton@uslgroup.com**.
